Dear First Name,

When did you last review your *specific* coverage amounts on your insurance policy? It's likely that they lack adequate coverage. Worse, you may have exclusions in your policy that don't give you the protection you expect in a "standard" policy. Did you know there are at least 100 different "standard" insurance policies in Texas?!

Why Individualized, Independent Insurance Matters

Individualized

- You get individual attention.
- Customized, personalized. Yes, individualized.
- Is there anything more important than your family--your house, your cars, your valuables? Not to you. Or us.
- No "cookie cutter" or "standard" policy. Your needs are individual. So is your policy.

Independent

- Coverage options and alternatives are vastly expanded with an independent insurance provider.
- We can "shop" more than 10 different carriers for your policy, and have access to 100-plus carriers (unlike Allstate, State Farm and others).
- Special needs—when they arise unexpectedly—are easily managed, added and covered.
- You get the Big Picture for the best coverage and cost. Bottom line, you maximize coverage and manage costs. Period.

Bottom line, you're an individual. You deserve individual attention.

Please call me today to get a second opinion for your existing insurance needs. I am at (972) 770-1695, or send me an e-mail at hoyt_utay@mhbt.com.

Sincerely,

Hoyt Utay
